OBJECTIVE

Seeking a challenging position in the field of **Software & Web Development or Research and Development** to leverage my expertise in programming, web technologies, and database management. Aiming to contribute to innovative projects that advance the development of efficient software solutions and cutting-edge technologies.

EXPERIENCE

Web Developer, Research and Development Department,
Web Service — Delhi
Jan 2021 – Present

- Developed and maintained 15+ dynamic corporate websites, reducing load times by 25% and increasing user engagement by 20%.
- Integrated content management systems (CMS) like WordPress and Drupal, enabling clients to easily update and manage website content.
- Optimized 10+ websites for SEO, resulting in a 30% increase in organic traffic within six months.
- Collaborated with cross-functional teams to deliver customized solutions tailored to client business objectives and branding.
- Provided ongoing technical support and training to clients, ensuring seamless website operation and addressing post-launch concerns.

Internship, Web Design and Development Department
In2inglobe — Delhi
Feb 2023 – Apr 2023

- Designed and developed responsive e-commerce websites tailored to client specifications, ensuring optimal user experience across devices.
- Collaborated with UI/UX designers to create visually appealing and functional layouts.
- Implemented shopping cart functionality with advanced features such as item tracking, promotional discounts, and dynamic pricing.
- Integrated secure payment gateways, streamlining the checkout process while ensuring data security and PCI compliance.
- Conducted thorough testing and debugging to ensure seamless performance and addressed customer feedback to refine the end product.

EDUCATION

Guru Teg Bahadur Institute of Technology — B.Tech. in Computer Science and Engineering   **Delhi, India**
Aug 2022 – Present

Ambedkar Institute of Technology — Diploma in Computer Science and Engineering   **Delhi, India**
Aug 2018 - Jun 2021

Central Board of Secondary Education, Govt. Boys Senior Secondary School   **Delhi, India**
Apr 2017 – Mar 2018

PROJECTS

Minor Project: eCommerce Website
Mar 2024 – May 2024
Tools: Laravel

- Designed and developed A4 Paper, an eCommerce website focused on selling stationery products, with an intuitive user interface and seamless user experience.

- Executed core eCommerce features, including product listings, shopping cart, and checkout functionalities, ensuring secure transactions and robust user data protection.
- Utilized MongoDB for efficient product and order management, and React.js to create a responsive, interactive user interface.

Major Project: eCommerce Website with Admin Panel
Sep 2024 – Nov 2024
Tools: Laravel

- Developed AR Creative, a comprehensive eCommerce platform for custom frames, featuring both customer facing and admin panel functionalities.
- Built a user-friendly front end allowing customers to browse, customize, and order frames, integrated with a secure payment gateway for smooth transactions.
- Designed and developed a robust admin panel for efficient product management, order tracking, and user analytics, streamlining business operations.
- Leveraged React.js for component-based architecture, enhancing maintainability and scalability.
- Achieved a 20% reduction in load times through performance optimizations and integrated RESTful APIs for seamless communication between the front end and back end.
